

What we do...

Gmeiner Actuarial Services Inc.

specializes in providing actuarial reports and consulting services for law firms. Our expertise lies in the quantification of future financial losses and the valuation of pensions on marriage breakdown.

Our practice areas include:

- Personal Injury or Fatality cases
- Matrimonial Actions*
- Professional Negligence
- Criminal/Commercial Actions
- Pension Plan Issues
- Wrongful Dismissals
- Review of Reports Prepared by Other Actuaries in the Above-Noted Matters.

* In many instances, we are jointly retained by husband and wife to quantify present values of pensions on marriage breakdown.

Why retain us...

Assurance of the highest quality of actuarial reports and advice is guaranteed. We also pride ourselves on timeliness of our response.

To the extent possible, our reports take into account every contingency which has a material impact on the values being calculated.

Upon request, checklists will be forwarded to you which detail the information necessary to properly assess financial loss or to quantify the present value of a pension earned during a period of marriage.

In general, our services are billed on an hourly basis. However, a firm estimate of the cost of preparing a specific report can be provided by request in most instances. Pension valuations in matrimonial actions are billed at a flat rate.

Please contact us for further details.
